

Building science excellence in your school

Southend Essex & Thurrock SLP

We are pleased to announce the launch of our NEW Regional Science Support Package for Southend area primary schools.

We would like to offer your school the opportunity to sign up to the package for an early bird price of £100 per **school**, for the year 2020-21. This will allow you to send as many staff as desired to any or all of our virtual or face-to-face meetings/CPD sessions listed below, and will also enable you to send your staff to the 2021 Primary Science Festival – all at one single, affordable one-off cost.

How does it work?

If you would like to subscribe, please email e.emmerton@setsa.info requesting to be invoiced for £100 in respect of the 2020-2021 **Regional Science Support package for Southend Primary schools**.

You will then be sent an invoice and a discount code, which can be applied to ALL places booked on any of the following sessions:

Sessions included	Usual cost	Cost with subscription
